

Intercept the GET request when clicking on the user rating star

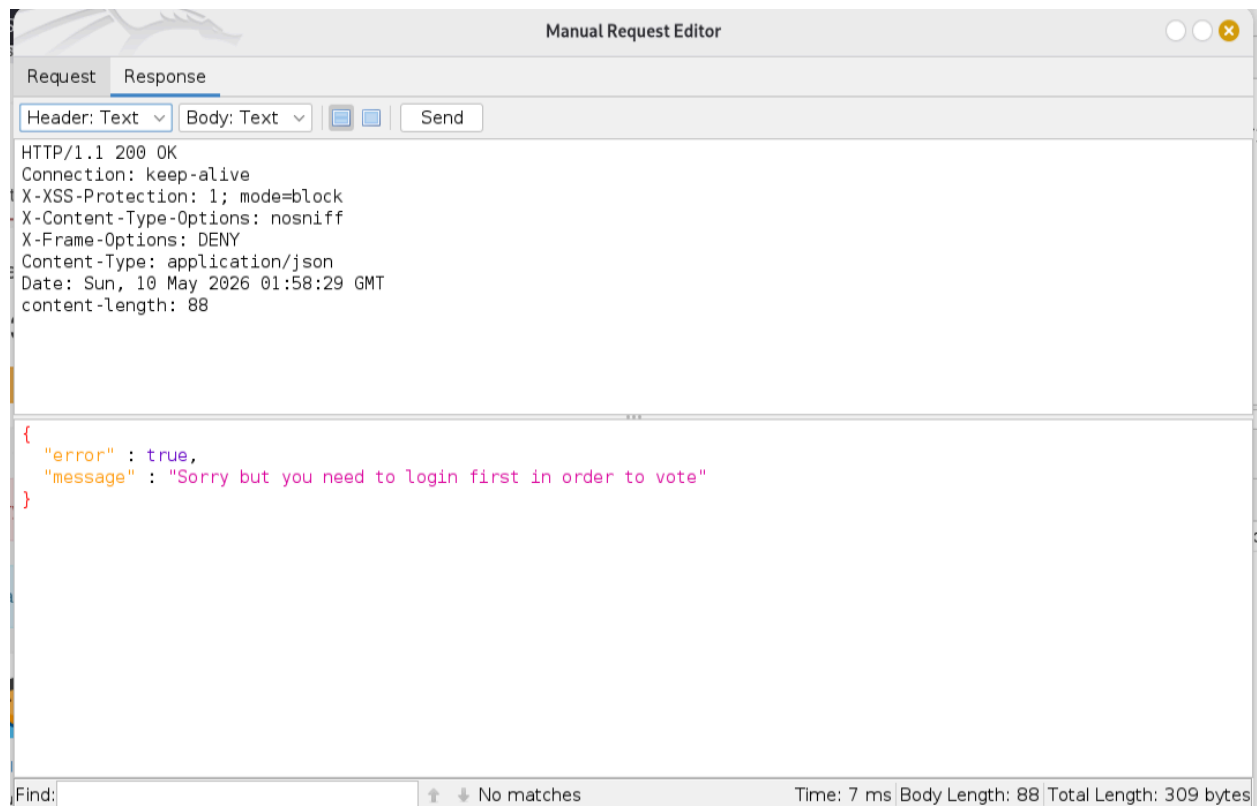

Open the request editor

ind: ↑ ↓ No matches Time: 0 ms Body Length: 0 Total Length: 0 byte

```
GET http://127.0.0.1:8080/WebGoat/challenge/8/vote/3 HTTP/1.1
```

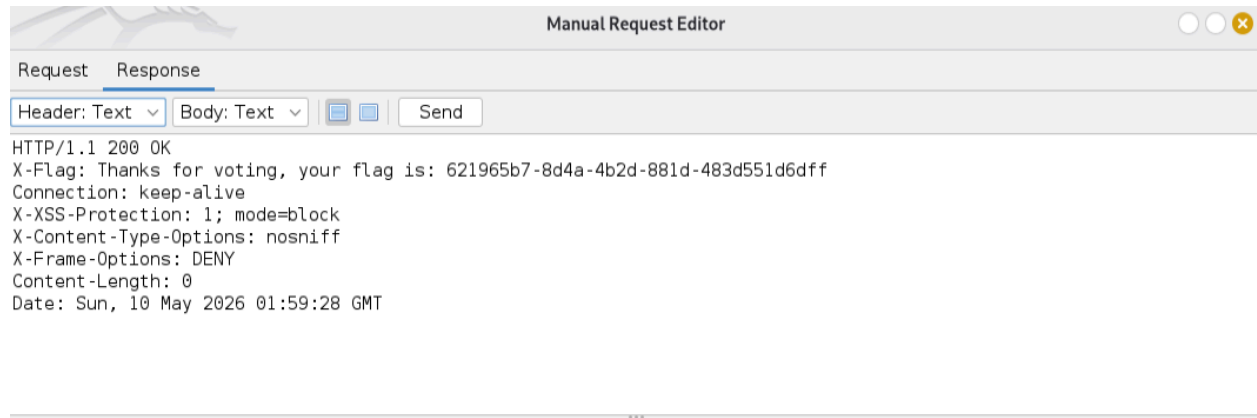

Send it to see the response

Change the GET request to a HEAD request

The response gives the flag

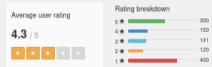

Find: ↑ ↓ No matches Time: 14 ms Body Length: 0 Total Length: 267 bytes

Flag: 621965b7-8d4a-4b2d-881d-483d551d6dff

👍👍👍👍

WebGoose rocks!

This is a great tool to learn about security and have some fun with a couple challenges.

👍👍👍👍

Nice

I liked it and learned a couple of things. Still some bugs sometimes though.
